

Year 1 Project – The Rain Forest

As we would have been learning about the rain forest in school this term, for your project I would like you to find out as much as you can about these fascinating places! You could choose some (or all!) of the questions below to answer, or find out your own information.

- Where are the rain forests in the world?
- Why rain forests are called rain forests?
- How are they different to our local forests?
- What lives in the rain forests? Can you find some examples of things that crawl, fly and climb?
- What plants grow in the rain forests? Can you find a really interesting plant?
